About Us

Founded in 2011, Power-Xtra has been offering reliable battery and charger solutions to consumers and industrial manufacturers with a wide range of products from consumer type primary and rechargeable cells to high-tech industrial batteries. Power-Xtra products are the best-fit for many electronic devices including electric bikes, drones and other light EVs, hearing-aid kits, medical appliances, back up stations, and defense applications.

Power-Xtra provides battery solutions with different chemistries including Lithium-ion, Lithium, Lithium-polymer, Ni-MH, Ni-CD, and Lead-acid. Our clients are privileged to enjoy the benefits of longevity, and superior quality under manufacturer's exclusive warranty.

Our quality standards include physical and technical tests before and after the production, and Power-Xtra provides 100% guarantee for its quality. In a world of continuous technological improvements at an unprecedented pace, the advancements especially in the field of automation and industry, necessitated Power-Xtra®, to introduce custom-made, cost-saving battery solutions tailored to the special needs of its industrial clients while making no compromise on quality.

Power-Xtra®, offers its extensive product range, know-how and technical support to industrial manufacturers, battery packers to help fostering on site production.

Power-Xtra products are available in 15 countries across Europe, China and MENA, owing to its extensive network of business partners, distributors and manufacturer clients. We are committed to providing high quality and optimum solutions to keep pace with the ever-changing needs of our clients, while growing stronger everyday.
